

INVITATION

Join our event:

Addressing climate change impacts on cultural and natural heritage – The Way Forward

Tuesday 2 November 2021 | 17:00 – 20:30 (CET)

Event to take place in hybrid format live from Brussels.

This High-Level Event focuses on the interconnection and interdependence between our heritage - natural and cultural - and the impacts of climate change. Furthermore, it aims to promote the inclusion of cultural heritage into the National Adaptation Plans, as well as the exchange of best practices in order to improve the resilience of world's monuments and cultural/natural sites to the impacts of climate change.

The participants will also explore policy avenues and actions, as well as awareness raising and capacity building initiatives, with the view to further enhance the goals of the UN Initiative "Addressing climate change impacts on cultural and natural heritage", driven by Greece at the UN level.
